About

Junior Developer

Hi, I'm Leo, a Finance Professional turned Web Developer.

I have always been interested in finance and technology, and I decided to pursue my passion for web development.

I enjoy creating responsive and user-friendly websites that can deliver value and functionality. I have also learned some Python and data analysis skills, and I am eager to expand my knowledge and portfolio.

I am looking for opportunities to work as a junior web developer, where I can apply my skills and learn from experienced developers. I am a fast learner, a team leader, and a problem solver. I am also open to feedback and new challenges.

If you are interested in working with me, please feel free to check my CV and contact me.

Blog page (bottom)

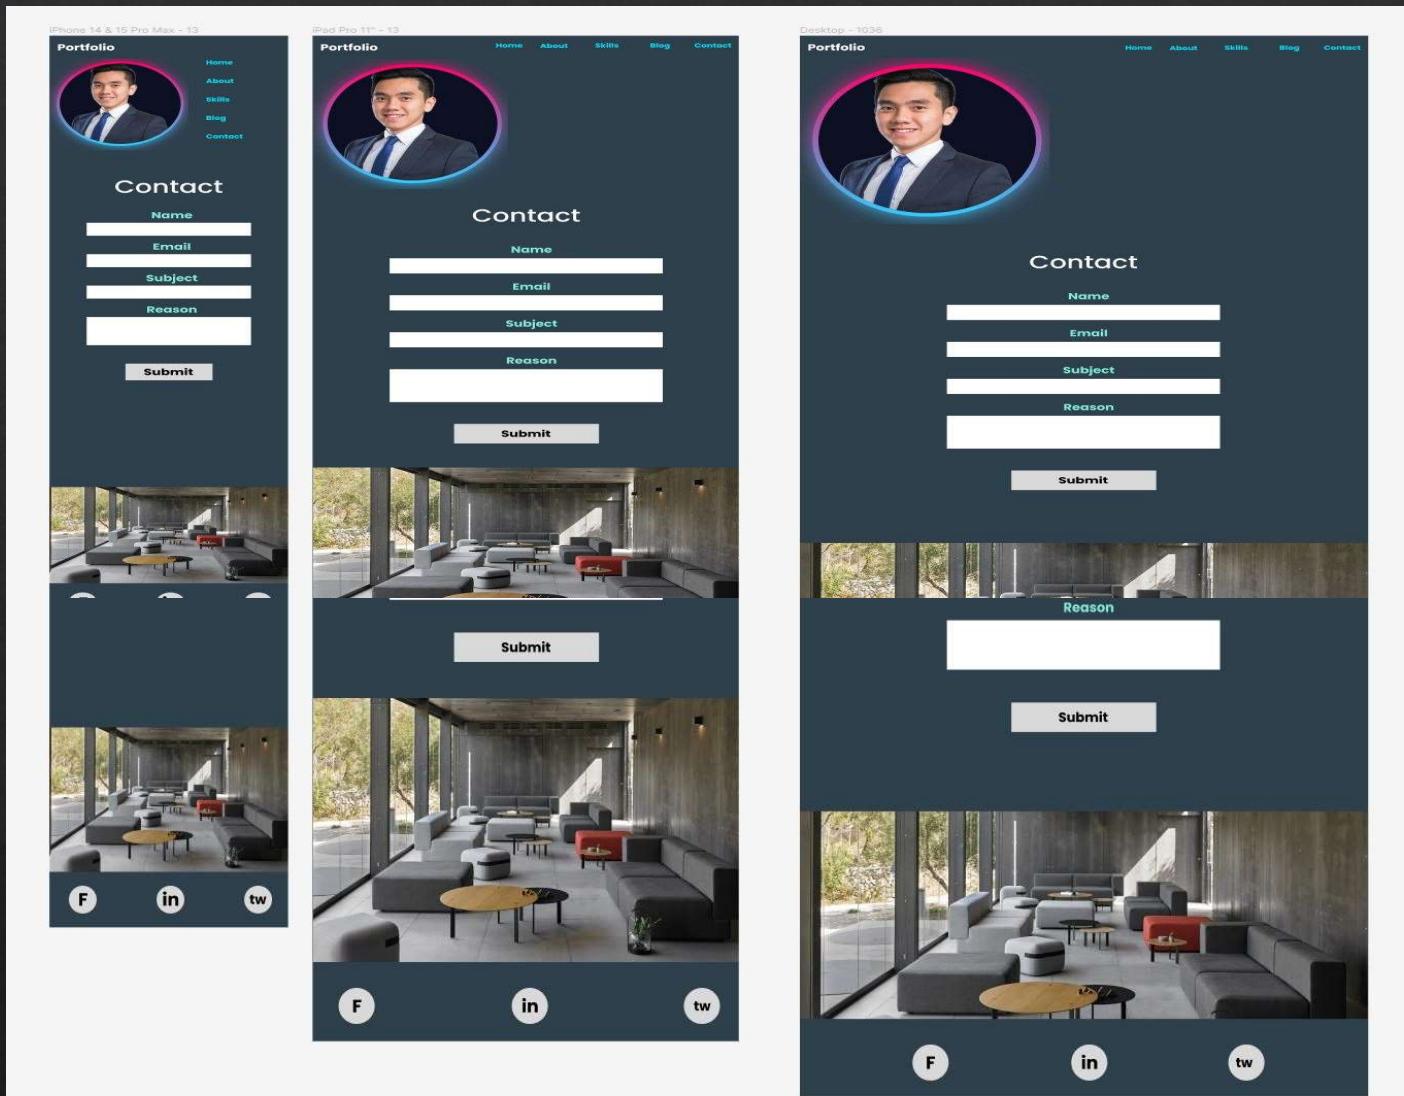

The image displays three vertical screenshots of a blog page, likely from a platform like Investopedia, showcasing investment profiles. The first two screenshots are from the same user profile, while the third is from a different user.

Screenshot 1 (Top Left): A profile card for "RE investing - 11/07/2019". It shows a green "52.61%" return, a "16 COPIERS" button, and a "COPY" button. Below it is another profile card for "Etoro - 07/04/2020" with identical metrics. Both cards include placeholder text about real estate investing.

Screenshot 2 (Middle Left): A profile card for "leonard157 Xuan Lap Tran". It shows a green "52.61%" return, a "16 COPIERS" button, and a "COPY" button. Below it is another profile card for "Etoro - 07/04/2020" with identical metrics. Both cards include placeholder text about real estate investing.

Screenshot 3 (Right): A profile card for "leonard157 Xuan Lap Tran". It shows a green "52.61%" return, a "6" icon, a "RETURN (LAST 12M)" button, and a "RISK" button. Below it is another profile card for "Etoro - 07/04/2020" with identical metrics. Both cards include placeholder text about real estate investing.

Web development process

- ❖ 1. Sitemap
- ❖ 2. Wireframe
- ❖ 3. Color schemes
- ❖ 4. Start building the website
 - ❖ a. Folder/directory structure: follow the basic requirements of Docs, PPT and SRC, with one more index.html to help with deploying the website.
 - ❖ b. Scss files
 - ❖ c. All page html files in src/pages
 - ❖ d. All scss files in src/styles, organised in separated folders dedicated for different areas for designing:
 - ❖ i. Components folder: footer, header, and utils (for general styling purpose).
 - ❖ ii. Defaults folder: animation, breakpoints and colors.
 - ❖ iii. Pages folder: for different page design styling.
 - ❖ e. Start coding in html and scss

Challenges, ethical issues, and favorite parts

- ❖ The most time-consuming part is the idea/layout part: layout, design ideas, animation.
- ❖ The hardest and most interested part is the animation coding
 - ❖ this is where I do a bit more research on floating animation, transparent styling, sliding animation, progressing bar chart animation and glowing animation.
- ❖ The most enjoying part would be the color scheme and moodboard, this is where I find many interesting design styles.
- ❖ The favorite part is obviously the animation! This is where I feel I would spend most of my time in the future to re-visit.
- ❖ I am aware of and acknowledge the ethical principles that guide research and the use of ChatGPT. I understand that there are potential risks of plagiarism and privacy violation when using AI-generated code. All researches done through search engine and ChatGPT have been done carefully and purely for the purpose of obtaining deeper understanding, knowledge and skills.

Conclusion

- ❖ To conclude, I have presented:
 - ❖ My portfolio website, which showcases my design style with animation and color scheme.
 - ❖ A walk-through of my design and development process, and
 - ❖ Some of the challenges, ethical issues, and favorite parts of creating this website.
- ❖ If you are interested in working with me, please feel free to check my CV and contact me. You can also follow me on GitHub, LinkedIn, where I share my projects and progress.

That is the end of my presentation!
I hope you enjoy, and
Thank you for your time!
